

QuantNexa CRM — Practical Lead Management Flow

Correct Operational Process: Student Fills Public Form & Exits → Counsellor Calls, Records Conversation, and Completes Specific Selections inside CRM.

Key Process Clarification:

1. **The Student** fills out basic contact info on Instagram/Facebook/Website and exits. The student does **NOT** access the CRM.
2. **The Counsellor / Admin** receives the lead in the CRM, calls the student (call recorded), discusses options, and makes all specific course, batch, document, and fee selections inside the portal.

STEP 1: STUDENT FILLS FORM & EXITS

STUDENT SIDE

- The student sees our ad on **Instagram, Facebook, Google, or Website** and clicks the enrollment form link (<http://localhost:5173/enroll>).
- Student fills out basic contact details: **Name, Mobile Number, Email, and City**.
- After submitting, the student sees a simple '**Thank You! Our Counsellor will call you shortly**' message and exits.
- **Important:** The student has NO access to the CRM portal.

STEP 2: AUTOMATIC CRM LEAD ENTRY & ALLOCATION

CRM PORTAL INGESTION

- As soon as the form is submitted, the lead **automatically appears in our CRM portal** under **Leads (/leads)** & **Pipeline (/pipeline)**.
- The system **assigns the lead to a Counsellor**, who receives an instant notification alert on their dashboard.
- The assigned Counsellor opens the lead's profile to view their initial inquiry.

STEP 3: COUNSELLOR CALLS LEAD & CALL RECORDING

TELEPHONY RECORDING

- The Counsellor clicks '**Call Lead**' ■ inside the CRM profile.
- The call is dialed to the student's mobile and **automatically recorded in HD audio**.
- When the call ends, the **recorded audio file** is saved under the lead profile and on the **Calls Page (/calls)**.
- **Team Access:** Super Admins, Managers, or other Counsellors can click '**Play**' ■ to listen to the call audio anytime to verify what was discussed.

STEP 4: COUNSELLOR SELECTS CHOICES & VERIFIES DOCS

COUNSELLOR WORKFLOW

- During or after the call, **the Counsellor makes and updates all specific choices inside the CRM** on behalf of the student:
 - Selects the exact **Course & Batch** (e.g. *Full Stack / Data Science, Morning/Weekend batch*).
 - Verifies uploaded **10th, 12th marksheets, Aadhaar ID, and photo** under the Documents Tab.
 - Applies any **Scholarship Discounts / Installment Plan** discussed during the call.

STEP 5: OFFICIAL STUDENT ENROLLMENT**ENROLLMENT COMPLETED**

- When the student agrees to enroll, the Counsellor clicks '**Convert to Student**'.
- The status changes to **Enrolled**, a permanent **Student ID** (e.g. *QN-2026-8942*) is created, and official student portal login details are sent via WhatsApp/Email.

Practical Workflow Responsibilities Table

Stage	Who Does What	Where It Happens
1. Public Form Submission	Student fills basic info & exits. Does NOT enter CRM.	Public URL (/enroll)
2. Lead Ingestion	Lead automatically enters CRM; Counsellor notified.	CRM Leads List (/leads)
3. Calling & Recording	Counsellor calls student; audio recorded & saved.	CRM Calls Page (/calls)
4. Choice Selection & Docs	Counsellor selects course, batch, discounts & verifies docs.	Lead Profile inside CRM
5. Admission & Login	Counsellor converts lead to Student; credentials dispatched.	CRM Payments & Students
