

QuantNexa CRM Operational Guide

A Simple, Step-by-Step Explanation of How Students Enroll, How Counsellors Manage Leads, and How Calls are Recorded.

Key Idea: *This guide explains the real, daily practical flow of our portal in plain English. No complicated technical buzzwords — just clear steps for your team from lead entry to student enrollment.*

Step 1: How a Lead Enters the Portal

When a prospective student sees our advertisement on **Instagram, Facebook, Google, or our Website**, they click the enrollment form link.

- The student fills in basic details: **Full Name, Mobile Number, Email, Qualification, Preferred Course, and Campus.**
- As soon as the student submits the form, their details **instantly appear in our CRM portal** under the **Leads Page** and **Pipeline View**.

Step 2: Who Takes Care of the Lead

Once a new lead enters the portal:

1. The portal **automatically assigns the lead** to an available Counsellor (or Super Admin/Manager can assign manually).
2. The assigned Counsellor receives an **instant alert/notification** on their dashboard.
3. The Counsellor opens the Lead Profile to view all details and start working on the lead.

Step 3: Document Verification Check

Before admitting a student, the Counsellor verifies their documents inside the **Documents Tab**:

- **10th Marksheet** (Verified / Pending / Missing)
- **12th Marksheet / Diploma Certificate**
- **Government ID Proof (Aadhaar Card)**
- **Passport Size Photo**

If any document is missing or incorrect, the Counsellor can click '**Request Re-upload**', which automatically sends a message to the student.

Step 4: Calling the Lead & Call Recording

Communication with the student is recorded and saved directly in the portal:

- The Counsellor clicks the **'Call Lead'** ■ button inside the CRM.
- The call is connected to the student's phone and **automatically recorded**.
- Once the call ends, the **recorded audio file** is saved under the lead's profile.
- **Why this is useful:** Anyone on the team (Manager, Super Admin, or another Counsellor) can click 'Play' and listen to the recorded conversation anytime in the future.

Step 5: Enrolling the Student & Next Steps

When the student is interested and ready to join:

1. The Counsellor clicks **'Convert to Student'**.
2. The student's status changes to **'Enrolled'** and a Student ID is created.
3. The student receives their **Student Portal login credentials** on WhatsApp and Email.
4. Fee payment installments are tracked cleanly under the **Payments Page**.

Quick Workflow Reference Table

Stage	What Happens	Who is Responsible
1. Marketing & Entry	Student fills form on Instagram / Facebook	Student / Marketing
2. Lead Assignment	Lead lands in CRM; notification sent to team	System / Manager
3. Calling & Recording	Counsellor calls student; audio recorded & saved	Assigned Counsellor
4. Document Check	Counsellor verifies 10th/12th/Aadhaar/Photo	Assigned Counsellor
5. Student Enrollment	Lead converted to Student; login details sent	Counsellor / Admissions
